EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Arthur Kluegel on April 28, 2006.

The application has been amended as follows:

Cancel Claims 32 – 34.

On page 1 of the specification, delete the sentence:

--This application is related to three applications co – filed herewith under Serial Nos. 10/017,402; 10/017,002 and 10/020,714, the contents of which are incorporated herein by reference-- .

And substitute the sentence as follows:

--This application is related to three applications co – filed herewith under Serial Nos. 10/017,402, filed December 14, 2001, now pending; 10/017,002, filed December 14, 2001, now abandoned; and 10/020,714, filed December 14, 2001, now abandoned, the contents of which are incorporated herein by reference-- .

2. The following is an examiner's statement of reasons for allowance: The prior art of record discloses a light diffuser having layers having microvoids, but does not disclose a plurality of layers in which the average length or frequency varies by at least 28% between at least two layers, and the variation is sufficient to increase the diffuse light transmission efficiency by at least 10% at 500 nm compared to a single voided layer, wherein the diffuse light transmission efficiency of the diffuser is greater than 80% at 500 nm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The drawings are objected to because there are two sets of drawings labeled Figure 1 and Figure 2, filed December 14, 2001. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet

submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
